O.S.S.D Graduated June 2023
E.L. Crossley Secondary School, June 2023

EXPERIENCE

JTG Systems

September 2022 - Present
Welland, Ontario

PC Repair Technician

- Engage with customers in diverse emotional states to efficiently intake devices for repair.
- Apply strong problem-solving skills to diagnose and resolve issues across a wide range of desktop and laptop PC models.
- Contact customers to provide updates on repair status, including notifying them of "non-repairable" conditions.

Script & Web Developer

- Continuously review new documentation and code samples to master APIs and libraries essential for current projects.
- Develop and maintain web-scraping scripts for data collection and management using tools like Puppeteer and Matplotlib.
- Modify and enhance websites built with PHP and WordPress to fulfill client specifications.
- Design and manage databases in CSV, JSON, SQLite, and in-memory formats, handling diverse data sizes.
- Consistently write and optimize code in DHTML, TypeScript, Python, and C# across multiple programming paradigms.
